PROFESSIONAL SUMMARY

Senior .NET Developer with 6+ years of experience building scalable enterprise applications in Silicon Valley tech environments. Strong expertise in ASP.NET Core, C#, microservices architecture, cloud-native development on Azure, and high-performance REST APIs. Proven track record of delivering SaaS products used by thousands of daily active users. Passionate about clean architecture, DevOps practices, and system optimization.

TECHNICAL SKILLS

- **Languages:** C#, .NET Core, JavaScript, SQL
 - **Frameworks:** ASP.NET Core, Entity Framework, Blazor, Web API
 - **Frontend:** React.js, Angular
 - **Databases:** SQL Server, PostgreSQL, MongoDB
 - **Cloud:** Microsoft Azure (App Services, Functions, DevOps, AKS)
 - **Tools:** Docker, Kubernetes, Git, Azure DevOps, Jenkins
 - **Architecture:** Microservices, Clean Architecture, CQRS, DDD
-

PROFESSIONAL EXPERIENCE

Senior .NET Developer

Google (Contract via Tech Solutions Inc.) – Mountain View, CA

Jan 2022 – Present

- Designed and developed microservices-based backend systems using ASP.NET Core
 - Built high-performance REST APIs handling 2M+ daily requests
 - Migrated legacy monolithic system to cloud-native Azure Kubernetes Service (AKS)
 - Improved system response time by 45% through caching and query optimization
 - Collaborated with cross-functional teams in Agile/Scrum environment
-

.NET Developer

Microsoft Partner Project – San Francisco, CA

Jun 2019 – Dec 2021

- Developed enterprise SaaS application using ASP.NET Core and React
 - Integrated third-party APIs for payment, analytics, and authentication systems
 - Implemented CI/CD pipelines using Azure DevOps
 - Reduced production bugs by 30% through automated unit and integration testing
 - Worked on secure authentication using JWT and OAuth 2.0
-

Junior .NET Developer

InnovateX Tech Solutions – San Jose, CA

Jul 2017 – May 2019

- Assisted in building internal CRM system using ASP.NET MVC
 - Developed reusable components and APIs in C#
 - Participated in database design and optimization in SQL Server
 - Supported production deployments and bug fixing
-

EDUCATION

BSc in Computer Science

University of California, Berkeley, USA

2013 – 2017

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate
 - Microsoft Certified: .NET Developer
 - AWS Certified Developer – Associate
-

KEY PROJECTS

1. Enterprise SaaS Platform

- Multi-tenant SaaS system built with ASP.NET Core + Azure
- Supports 10,000+ businesses with real-time analytics dashboard

2. FinTech Payment API System

- Secure payment gateway integration supporting Stripe & PayPal
- Implemented fraud detection module using rule-based engine

3. AI-Based Recommendation Engine

- Integrated ML model into .NET backend for product recommendations
 - Improved user engagement by 22%
-

ACHIEVEMENTS

- Reduced cloud infrastructure cost by 35% through optimization
- Led migration of monolithic system to microservices architecture
- Awarded “Best Engineer of the Year 2023” (Tech Solutions Inc.)
